### Alibi For A Lost Autoist

Next time you get lost on a vacation trip and someone starts grumbling, there's but one thing to do.

Stop the car and calmly explain that according to the U.S. Geographical Survey only about 37 per cent of the United States is adequately mapped. So there.

Such undisputed authority should squelch the most persistent back-seat driver or in-law.

This may be your gain, but Gerald FitzGerald, chief topographical engineer of the survey, wishes it wasn't so.

Postwar government water, mineral and highway programs "have caught us with our maps down," he confessed to the American Congress on Surveying and Mapping meeting in Washington recently.

Worse yet, the country won't be adequately mapped for another 17 years, he predicts. Seems that the current rate of mapping is about 4 per cent

So don't feel too badly when you lose your way, for Uncle Sam will be groping around himself for a long time to come.

### Ode To Spring

Robins? Bah.

Crocuses and lilacs? Pooh.

The real song of spring is the early afternoon call of the Blue Warbler as he bursts forth with his melodious, "Play Ball!"

When the ballyard grass blossoms with used paper cups and empty popcorn boxes, mankind may be assured that another spring has safely arrived. And none too soon.

Our boundless hopefulness (or blindness) is such that last year's disasters are forgotten. Courage and optimism flower with the emerging of the souvenir salesman from his hibernation. Our team may have faltered in the race for the flag as last summer faded. But this is a new, clean start.

Hurrah! This is the "next year" we fans started waiting for when the final . fly was caught last year.

## **Looks for Good Qualities**

Jane makes friends easily. But even more important, she keeps

There is more than one reason for this, of course. But, perhaps, the most important reason is that Jane loks for qualities to admire in others. Then, like a good press agent, she promotes those qualities. Because she recognizes their admirable qualities. Jane's friends are happy and relaxed when they are with her. They never have to be on guard for fear she is looking for flaws or for something to dis-

And they wouldn't be human if they didn't appreciate her enthusiastic advertising of their good points.

The people so criticized eventually become enemies. And those who walk without any middle. Then hear the constant criticism of others are fearful of this person who is

> And it is easy to master if you never allow yourself the luxury of envy. For without envy you are free to admire and to advertise your admiration.

ing them through the years.

And that is a very fine reward, indeed.

Something's in the making here. Maybe it's a garden. Maybe it's nothing more than a ditch. But what really counts is that father and son are working together

Sonny may be more hindrance than help just now. But. says Dad patiently, "How ever will the boy learn if he doesn't

When you watch, with ebbing patience your child's fumbling efforts to imitate yours, do you ever think about your heavenly Father's patience with you when you are in the wrong?

He's right there, working alongside you too, wanting to show you how to carry on, and staying close by in

case you get into trouble. If you keep in touch with Him through prayer and regular church attendance, you will learn from Him how to live, just as your child learns from you through talking and being with you.

#### THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

And let us announce in no uncertain terms-it's the newest thing on wheels.

#### The Styling is New

Sure, it looks like a Buick. But it has a new V-prowed grille that says 1956 and no mistake. The hood's new-the fender ports are new-the sweepspear is new - and it all adds up to a new sweep-ahead look that ends in a sassy new slant to the rear contours.

But that, friends, is only the beginning.

#### The 1956 Dynaflow\* is New

It introduces what the engineers

GAY COLORS for every fashion GREAT-BUY PRICES for every budge

Now atour Showrooms

AT A NEW LOW PRICE - 4-Season Comfort in your new Buick with FRIGIDAIRE CONDITIONING

call "double regeneration"-which means a double-action take-off. It gives you new, split-second response in the first inch of pedal travel - plus the "switch the pitch" at full acceleration, which no one else has yet approached.

#### The Ride is New

To coil springs on all four wheels. a brawny X-braced frame, and torquetube drive, the engineers have added deep-oil shock absorbers to give new softness, new buoyancy, new comfort, and a brand-new "sense of direction" handling response.

#### The Power is New

All 1956 Buicks have new 322cubic-inch V8's - with record highs in power and compression - with unique

new double "Y" manifolding to step up efficiency-with new carburetor "deicing" -and a host of other new features to make owning a Buick pure pleasure.

#### The Thrill is New

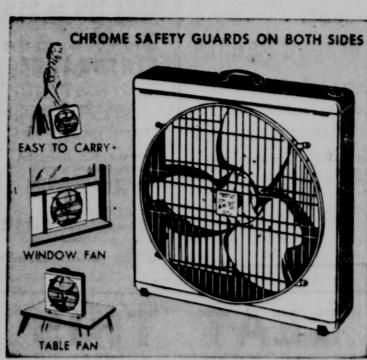

And the surest way for you to find out how right we are, is to sample a 1956 Buick yourself.

As we said before, this is the best Buick yet-by a wide measure-and when you learn the prices we're quoting, you'll know why this Buick is one of the three best sellers in today's market.

It takes a lot more than face lifting to produce such a winner as this.

\*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

## make budgets go farther

You can cut square-foot costs for factory and warehouse space to a new low . . . with Butler 70' clear-span steel buildings! You'll find them easy to adapt to your site and use, too. They give you 14' sidewalls, with bays for any length. Also lean-tos 20' wide with 8' walls. Doors and windows can be located for your convenience. Insulation and lighting are easy, economical. Galvanized or aluminum sheeting assures years of weather-tight protection with little upkeep. Bolted construction makes later expansion or relocation simple.

Let us show you how Butler buildings make your budget go farther. We will gladly work with your architect or plant engineers. ... Our service can cover everything from foundation to insulation. Call or write us . . . today!

#### SPECIAL PAINTS NOW MADE FOR ASBESTOS SIDING

If you are planning to join Opration Home Improvement and fix in '56," as are countless families throughout the country, you may wish to paint your asbestosement siding to suit a new color

If so, go right ahead with your plans. Authorities on home mainenance point out that although such siding never requires painting for preservation, it does take

Before painting, however, be sure to check with your building materials, hardware or paint dealer. The siding, like other asbestos-cement products, actually is a form of reinforced concrete. As such it calls for a special type of paint, which is produced by various companies. Follow the manufacturer's directions closely.

Painting an asbestos-sided home can be well justified from an investment viewpoint since the siding lasts indefinitely. Moreover, the material's incombustibility offers an important bonus feature of fire-safety throughout the life

of the house. comes permanently predecorated in a choice of attractive colors.

Does Morgan County want the services of THE AMERICAN RED CROSS? If so we need your donations badly!! Citizens of this county have donated the meager sum of \$5,172.00 for the services this Chapter provides. The quota is \$18,136.00. We are in danger of losing the entire services of the office in our county — and will definitely lose our blood program, water safety and numerous other services provided by this Red Cross chapter if we do not meet this goal!!

Phone CH 5-6194

328 South Main

If you have not been asked to donate, please do so and send it to our office it will be appreciated very much!!

Again we say, do the people of Morgan County want this program?? If so you must support it! Once it is lost it is hard to face the problem that arises each time a family needs blood for a loved one and asks, why hasn't Morgan County a blood program??

BENSON DODGES QUIZ

WASHINGTON P-Secretary of Agriculture Benson declined to say Friday whether he will recommend a veto of the farm bill. Benson was questioned briefly when he posed in front of his department for news photographers who wanted pictures before he left by plane for Augusta. Ga., to confer with President Eisenhower on farm legislation. "Will you resign if the Presi-

dent signs the bill?" one reporter asked. Smiling, Benson replied, "I as-

sume we'll discuss the farm bill."

U. OF I. NAMES **56 ILLINI MOM** 

CHAMPAIGN, Ill. (P) - Mrs. Clara Shurson, 45, Joliet, has been named 1956 Illini Mom at the University of Illinois and will May 4-6.

Her name was chosen by lot from 2,500 mothers' names submitted by student sons and daughters. Her son, Robert, Jr., 19, is a sophomore in the college of commerce and business administration. Mrs. Shurson's husband, Rob-

ert, is an executive of the Amer-

ROLLING OUT OF AMERICA'S PAST-The famous Shelburne Museum, at Shelburne, Vt., has acquired a real old Conestega wagon, a rarity of Americana. It is pictured here before the museum's reproduction of an old-time general store. Originating in Lancaster County, Pa., Conestogas first were used by farmers to carry goods to market. Later the wagons accompanied pioneers across the Alleghenies and subsequently brought thousands of emigrants to the West They remained to do the heavy hauling until the coming of the railroads. The Conestogas were big-up to 24 feet long-with rear wheels five to six feet high and were usually drawn by six-horse teams. Their high-ended style and construction remained almost unchanged during the century from 1750 to 1850.
